

CLUB CLEANING PRODUCTS

ALL PRODUCTS ARE INCLUDED IN THE EPA LIST N - DISINFECTANTS FOR USE AGAINST SARS-COVID-19

TRIAD DISINFECTANT CLEANER - a quaternary-based, heavy duty alkaline cleaner and disinfectant for use in healthcare, education, lodging and commercial facilities. Excellent for heavy soil applications. Highly effective against a broad spectrum of pathogenic microorganisms including bacteria, antibiotic resistant bacteria, viruses, fungi, mold and mildew. Bactericidal, virucidal, and fungicidal. Kills MRSA and VRE. Meets bloodborne pathogen standards for decontaminating blood and body fluids.

FLEX WIPES DISINFECTING GYM EQUIPMENT WIPES - Disinfect and clean most surfaces killing 99.9% of bacteria in just 15 seconds. Heavy duty wipe material is made from a blend of cellulose and polyester creating a tensile strength and will not tear apart in your hands as you clean. Specially formulated without the use of bleach or phenol and can be used on most surfaces including gym equipment padding, locker room benches and counters, railings, desktops and more. Perfect for sanitizing and deodorizing commercial fitness facilities, office buildings, grocery stores, hospitals, and public restrooms. EPA registered to kill over 40 pathogens.

SANI-CLEAN (QUAT SANITIZER) - EPA approved quaternary ammonium-based disinfection cleaner. Sani-Clean contains specialized cleaning compounds that removes dirt and oil from surfaces allowing the disinfection compound to effectively eliminate harmful pathogens that may be present. Sani-Clean is an effective bactericide, fungicide, and virucide, ideal for hospitals, nursing homes, schools, food service establishments, veterinary hospitals, and households. Eliminates a wide variety of pathogens including but not limited to E. coli, MRSA, Salmonella.

ZEP SPIRIT II - Hospital-grade, non-phenolic, germicidal cleaner and deodorant. Disinfects pre-cleaned, hard, non-porous surfaces. Particularly effective in airport terminals, eating & drinking establishments, physicians, childcare services, hotels & motels, schools and education services, cleaning & maintenance services, nursing homes and hospitals, service stations, department stores, sports and recreation clubs.

***PROTEXUS ELECTROSTATIC SPRAYER - PURTABS DISINFECTION TABLETS** - The sprayer uses an electrostatic charge that allows the droplets to attract to the surface, rather than float in the air (which is typically associated with a standard mister or fogger). Used in hospitals, nursing homes, restaurants, ambulances, daycares, schools, health clubs, salons, grocery stores, theaters, hotels and cruise ships, as well as many other business sectors. The PurTabs are a concentrated effervescent tablet with a neutral pH and are not caustic or corrosive to surfaces. It has a 1-minute kill claim for Coronavirus.

**Our plans are to use these sprayers throughout the facility, immediately following classes, and when areas of the club are vacated, such as childcare and locker rooms. They have been on order since the end of April and are expected any day.*
